

NOTICE: ANNOUNCEMENT OF AVAILABILITY OF DRAFT PERMIT

PERMIT NO.: WA-002261-6

APPLICANT: City of Colville
170 South Oak Street
Colville, WA 99114

FACILITY: City of Colville Wastewater Treatment Plant
Colville, WA 99114

The City of Colville (City) has applied for a National Pollutant Discharge Elimination System (NPDES) permit in accordance with the provisions of Chapter 90.48 Revised Code of Washington (RCW), Chapter 173-220 Washington Administrative Code (WAC), and the Federal Clean Water Act.

The City is in the process of constructing a new wastewater treatment plant that is expected to be completed by the end of the summer of 2006. The draft reauthorized permit contains interim limits for the existing facility and design criteria and effluent limits applicable to the new facility.

Following evaluation of the application and other available information, a draft permit has been developed which would allow the discharge of treated municipal wastewater from the City's wastewater plant to the Colville River.

A tentative determination has been made to reauthorize this permit based on the effluent limitations and special permit conditions that will prevent and control pollution. A final determination will not be made until all timely comments received in response to this notice have been evaluated.

PUBLIC COMMENT AND INFORMATION

The draft permit and fact sheet may be viewed at the Department of Ecology (Department) website: http://www.ecy.wa.gov/programs/wq/permits/eastern_permits.html.
